DATE: June 15, 2016

SUBJECT: **West Lafayette ATMS System
Central Controls Software Vendor Selection**

The Engineering Department, along with the Street Department and BF&S consultants, have reviewed and scored the three LOI's received for the West Lafayette ATMS System. We are in agreement that Traffic Control Corporation, using the Econolite Centrac system, is the highest scored vendor and would be the best selection to meet the City's needs in managing our ATMS infrastructure.

We would like to recommend the commission approve Traffic Control Corporation as our selection and to authorize the engineering department to enter into negotiations for a not to exceed budget amount of \$275,000.
